

June 17

Health: Church Planting – Acts 13

Healthy Churches plant other churches by making disciples, being generous with their resources and sending out leaders so that the gospel can be proclaimed.

Remember

Ask the group about any new people in their lives and how they are being intentional in those relationships.

Spend some time praying for the families who dedicated their children on Sunday.

- Nathan and Casey Chapman, Jedediah
- Kyle and Jessica Hoover, Millie
- Tiffany and Andy Porter, Grayson Bear
- Tracy and Nicole Rogers, Jax
- Greg and Hillary Ross, Will

What stood out to you from our gathering? Sermon? Music??

Deepen

When you think about church planting, what comes to mind?

We live in a celebrity/specialized culture. How can this affect us as followers of Jesus? How does this affect the way you read the book of Acts?

How can this affect your view of church planting?

Read 1 Corinthians 1:20-31

The gospel attacks our celebrity understanding. How does the gospel crush a celebrity mindset in these verses?

How does the gospel realities here propel us forward with hope?

Transform

Brian asked, Are we healthy? What are some steps toward health that God is specifically calling you to take?

What are some promises in **1 Corinthians 3:5-9** that speak into where we are as a church?

Close your time with prayer for Exodus Church, for David and Jordan and for an unwaivering trust in Our Builder.
