

June 3

Health: Worship – Romans 12:1-2

Healthy Churches live to delight in and display the supremacy of Jesus when they are gathered for worship and when they are scattered in the world.

Reminder

- As a Group, discuss the next few weeks of summer. How will everyone's travel, plans, etc need to affect your time together?
- Soccer Camp – see website.

Remember

- As you think about our church being a healthy church, what are some areas of growth and repentance for you from this series?
 - Shaped by the gospel
 - Living in Community
 - Living out the gospel in a transformed life
- What stood out to you from our gathered worship on Sunday?
- Why is it important to remember that worship is both gathered and scattered?

Deepen

- Discuss some of the new concepts for you from Sunday.
 - Worship as both gathering and scattering.
 - Worship as continuous movement toward what we value.
 - Worship as instinctive movement toward what we value.
- How do you see this worship issue playing out in your life?
- What are some things of value that you tend to instinctively move toward?

Brian said, "When we sin, our worship doesn't stop. It simply changes direction." How does Jeremiah 2:11-13 speak to our tendency to move toward things that we value?

What are the broken cisterns your soul seeks?

What do you hope to gain from them?

How does that usually end?

Read Jeremiah 3:6-13

When we find ourselves running after things of lesser glory, what are we to do?

How does the object of your worship need to be exposed, confessed and repented of?

Transform

Think about what gets glory in your life. How is the weightiness or brilliance of God being seen and savored in your life?

How does the direction of your worship need to change?

Brian mentioned that some of us are not excited about heaven because we have misunderstood worship. What was he getting at?

Close your time as a group discussing what it would look like for the glory of God to be central in all the world.

- What would that do for your community group?
- What would that do for your family?
